## Nursing Department visiting times

### **Why are visiting times available?**

Patients enjoy visits as a great way to break up the day. However, rest is extremely important for their recovery. That is why we would appreciate it if you agree to the following:

- No more than two visitors per patient; however, visitors can alternate.
- Be considerate of the other patients.
- Children must not be allowed to walk around unaccompanied.
- Nursing and medical care take precedence.
- Adhere to the visiting times.

People with a cold, flu or other contagious illness should postpone their visits; patients can be especially susceptible.
